September 2, 2003

Dear :

Please find enclosed specifications for the City of Clayton's Memorial Recognition Program. Once you have made a decision please submit your request in writing to the attention of Mark Janney, Maintenance Supervisor. He will notify you of the specific funding amount needed.

If you have any questions or need additional information in order to make a decision, please call Mr. Janney at (925) 673-7327.

Sincerely,

Rhonda Basore  
City Clerk

**Recommendation:**

Approve the following initial items for inclusion in the City of Clayton Donor and Memorial Recognition Program:

1. Victor Stanley Bench [with or without a back]. Assemblage, installation and plaque costs about \$1,540.00. These benches are the ones that are in the Downtown area. If these benches cannot be installed where there is an existing sidewalk, there would be added cost for a concrete base [approx. \$575.00].
2. 72" E.SPEC Park Picnic Table [ADA universal]. Assemblage, installation and plaque costs about \$1,495.00. These tables are in place at the Library, North Valley Park, and Downtown along the creek. Again, there must be a concrete pad available, which cost is not included in the installation cost above; generally, without special circumstances, a concrete pad costs \$730.00.
3. Timberform 72" Trail Bench. Assemblage, installation and plaque costs about \$1,450.00. This style of bench exists in the Community Park. It could be installed along our Trail system or in the parks.
4. 24" Box Tree [specie approved by City]. Installation and plaque costs about \$850.00. The trees could be planted anywhere on property the City owns that has adequate irrigation [except medians]. If irrigation must be installed, additional expenses are incurred.
5. Doggie Station [dispenser unit with small trash container] assembly, installation and plaque costs about \$500. It could be installed at Lydia Lane Park, El Molino/ Marsh Creek Rd., Westwood Park, and Community Park.
6. Trash Receptacle: [decorative container with concrete platform] installation and plaque costs about \$500. It could be installed at Lydia Lane Park, El Molino/ Marsh Creek Rd., Westwood Park, Community Park, downtown. [If these cannot be installed where there is an existing sidewalk, there would be added cost for a concrete base [approx. \$250.00].

Plaque to be 3" x 5" maximum limited to donor name, donor city, and remembrance name (if applicable). Plaque to be engraved metal brass like; or to be dark brown with white lettering if metal plaques can not be mounted on the item or near it, this likely for trees and trash or doggie stations (similar to the rose bush garden at Library--)

Donor shall make application to City. Once approved by staff, donor will be notified and specific funding amount needed. After receipt of funds, staff will place order for the item and plaque. After installation staff will notify donor.

Attached are pictures of the above items for this Program. As additional ideas or concepts unfold, they may be added to the Memorial Recognition Program. Upon City Council approval, a brochure and application will be developed for public display and distribution, along with information added to our Web Page site and an article in the next City Newsletter.

## Classic Series :: C-10 ::

Model C-10: A classic beauty, this bench features a gently sloping back and massive ductile iron end frames.

### Lengths:

Available as standard in 4-foot (1.2 meters), 6-foot (1.8 meters) and 8-foot (2.4 meters) lengths.

### Slat Options:

Ipe, Philippine mahogany, and 2nd Site Systems® reinforced recycled plastic slats.

### Other Options:

Custom lengths are available. Continuous seating, created by using a matching center casting, is also an option. Custom lettering is available for the C-7 and C-10 models. Custom lettering cast directly into the frames can be used for a name, to commemorate an occasion, or to identify a special area. Call for details.

### Standard:

All fabricated metal components are steel shotblasted, etched, phosphatized, preheated and electrostatically powder-coated with TGIC polyester powder coatings.

All ductile iron castings come with a 10-year warranty against breakage.
