CLAYTON TOWN CENTER PARKING STUDY QUESTIONAIRE

The Clayton City Council has initiated a study of current and future parking conditions in the Town Center. The parking study will examine the City's current parking standards; options for modifying the parking standards; provision of additional public parking; and shared parking agreements. Public input will be used in preparing a draft parking study which will address options for modifying the parking standards and regulations to encourage and stimulate economic growth of the downtown businesses, while ensuring adequate parking is maintained. The draft parking study will be reviewed by the Planning Commission and City Council at future meetings during the summer. You can provide your input by answering the following questions and returning or faxing the questionnaire by **May 26, 2005** to the Clayton Community Development Department at 6000 Heritage Trail, Clayton 94517 (fax 672-4917). Please call 673-7343 if you have any questions.

1. What is your experience of parking conditions in the Town Center?

2. What specific parking improvements would be helpful for businesses in the Town Center?

3. Any other comments about the Town Center?
